Company mission statement

To be the FM supplier of choice for office occupiers who value the service experience.

We're a different kind of service provider and proud of it. At Anabas our approach is based on designing a Facilities Management service which is visibly different for the corporate workspace. Put simply, we tailor our services to offer a boutique FM service which looks at the small details that create a great customer experience for everyone in the workplace. Our scale gives us the ability to be nimble and adapt quickly to changing circumstances, which is often called upon by our corporate clients to meet changing business demands. With the coverage of a national business, working across the UK, Anabas is big enough to deliver, but small enough to care. We work with clients where we can really focus on what we do best. Whatever our clients' needs, we offer the full range of facilities management services including cleaning, maintenance,

reception, security, catering, helpdesk and a range of additional FM services. Whether delivered as individual services or as part of an integrated facilities management package, we can specifically tailor our services to the businesses and workplaces where we operate. Our clients benefit from a deep expertise in service management and delivery in corporate office environments. Working in the financial, professional services, legal, technology and pharmaceuticals sectors, amongst others, our clients include many leading global brands whose workplace plays a key part in creating a high quality environment for their employees, customers and visitors to do business. It's always about raising the bar. This is reflected in our service mantra - Small decencies... great experiences. It's what defines our vision for delivering FM with a difference.
