**B**ouygues Energies & Services is a facilities management and energy performance partner. We specialise in the services and support needed to create and maintain efficient, comfortable and safe places to work or visit. Our dedicated and professional teams ensure that offices, schools, public buildings, industrial facilities and healthcare environments are all operating as they should.

In the UK, we are a leading provider of Facilities Management, Energy Services, Infrastructure and Contracting solutions across the public and private sectors.

Bouygues Energies & Services operates in over 25 countries worldwide and is part of the Bouygues Group - a global brand employing over 127,000 people in 100 countries.

## FACILITIES MANAGEMENT

Working in partnership with our clients, we deliver seamless and efficient services, tailored to suit the requirements of the client, building, and end-user. By identifying and implementing innovative solutions, we reduce downtime, lower operating costs, reduce administration and improve customer experience.

Our dedicated and skilled team self-deliver a broad range of services including maintenance and engineering, workplace solutions and project management. We also provide cleaning, catering, front of house, security, portering, logistics, and grounds maintenance.

## ENERGY

With rising energy costs and increasing energy security concerns, our specialist team advise how to these issues should be tackled.

Offering integrated engineering solutions, we incorporate renewable and low/zero carbon technologies, specialist funding options, grants and underwritten energy performance guarantees.

Our assured, fully-funded energy models transfer all technical and financial risk across to Bouygues Energies and Services; providing a de-risked route to carbon reduction and asset upgrade.

## INFRASTRUCTURE

With extensive experience in the UK electrical infrastructure market and diverse international expertise, we develop a portfolio of tailored solutions to suit the needs of our clients. By providing innovative technology offerings, we help to re-engineer the DNA of cities and the surrounding infrastructure network, delivering effective and efficient services.

Our offering includes highway and smart lighting, CCTV, smart motorways, EV charge points, Wi-Fi systems, energy connections and more.

We create environments that encourage an effective use of facilities and amenities that promote economic growth, sustainability, and social well-being.

## CONTRACTING

We specialise in the delivery of technically challenging and programme sensitive projects in critical environments. We are proactive problem-solvers finding innovative solutions to complex process engineering challenges. Our highly integrated design, build, operate and maintain solutions span throughout the entire project lifecycle.

With Bouygues Energies & Services, you get a partner who shares your vision and works as a genuine extension of your team. Our technical specialists are as passionate about turning your ideas into a sustainable reality as you are.

Our commitment means we often go above and beyond, giving our clients market-leading project completion programs. We have a proud history of supporting ground-breaking innovations, pioneering projects and our satisfied clients trust us to deliver on budget and on time, every time.
